DEPARTMENT OF COMMERCE

Chapter and its heading: 1, Department of Commerce
Article and its heading: 3, Diesel Vehicle Alternative Fuel Grant Program
Section numbers: R20-1-301 through R20-1-309

2. Subject matter of the proposed rule:

Since the mid-1990s, the Legislature has created several alternative fuel tax incentives and grants to encourage the use of alternative fuel and the purchase, lease, or conversion of alternative fuel vehicles. The goal of the Diesel Vehicle Alternative Fuel Grant Program is to lower on-road vehicle emissions by reducing the number of large diesel vehicles in Arizona.

The statute authorizes the Arizona Department of Commerce to provide grants to applicants who have entered into a purchase order or contract, on or after January 1, 2000, to convert a diesel vehicle with a Gross Vehicle Weight Rating of 19,500 pounds or more to run on alternative fuel. This program requires applicants to register their vehicles for three years and to operate the vehicles more than 50 percent of the time in non-attainment areas of the state.

The grant amount shall be actual cost of conversion or \$30,000, whichever is less.

This rule package implements statutory requirements by providing specific guidance and procedures for applicants. These rules will ensure fairness by establishing procedures for processing applications and awarding grants and will ensure consistency with the alternative fuel vehicle (AFV) rule already in place.
